

## Ashburton College

### Course Selection Form for Year 11 Students in 2019

Read the Course Descriptions Booklet for information about the courses being offered and talk to the Careers Co-Ordinator for advice.

Discuss your proposed courses with Parents, Deans or Family Form Teachers.

We are anticipating that a parent portal for our course selection will be available for parents to enter information

**Please Note:**

- Many courses require pre-requisites of performance. Please check with your teacher.
- Courses will only run if staff and resources are available.
- If numbers are too low for a particular course (class), that course (class) may be cancelled or combined with the same course at another level.
- Your course selection is used to prepare next year's timetable and to appoint staff.
- Changes will only be made to course choices under exceptional circumstances.
- Look at the 'Entry Requirements' for courses you may wish to study in Years 12 and 13.
- Some senior courses ask for Voluntary Course Contributions or there is a take home component cost. A request will be sent directly to parents/caregivers through the office.
- You will be studying **six** courses. Three must be English, Mathematics and Science. You will be placed in these classes based on your results from Year 10. Because of this, English, Mathematics and Science have already been entered as **three of your six** course choices. You must now choose **three** other courses from the list below. You also need to choose a fourth and fifth priority if others aren't available.
- ***While we will endeavour to meet all course choices, there may be combinations of courses that simply cannot be timetabled and these students may be asked to choose an alternative course or to look at enrolling in an on-line course through Video Conferencing or with the Correspondence school.***

#### Courses available for Year 11 students in 2019
